

Video Surveillance Policy

3420 | Video Surveillance Policy

Date Approved: October 12 2010

Date Amended: February 11 2020

The Board of Education supports a variety of programs and practices to improve student safety, employee safety and the protection of school property. Each year significant funds from the district operations budget are spent to repair school property damaged from vandalism.

The need to deter destructive acts, theft and/or other criminal activities should be balanced with a commitment to providing a learning environment for students and a working environment for staff and others that recognizes the right to assemble and associate without undue intrusion on personal privacy.

The Board supports the controlled use of video surveillance systems in the district where circumstances have shown that their benefit to deter theft, destructive acts and acts of violence outweighs the impact on the privacy of those observed.

Recorded video records are subject to the provisions of the Freedom of Information and Protection of Privacy Act (FOIPPA).
